LAW PROGRAM

# INTRODUCTION

TOMÁŠ HÜLLE, FOUNDER OF THE EUROPEAN CENTRE FOR CAREER EDUCATION

Dear students and partners,

it is my great pleasure and honor to introduce you the Summer Program on Law. The idea of the Program spreads across countries and regions, but its main focus is to deliver practical knowledge and experience to students who plan to connect their career with the law environment. At the same time, we work on our Summer Programs with targeted audience especially from Chinese universities in order to deliver more relevant information as well as internships opportunities for their region.

Our project is organized in close cooperation with the Charles University in Prague and the Ministry of Industry and Commerce of the Czech Republic to build up on a long history combined with modern education methods. All lecturers are very successful practitioners with many years of being recognized for their high profile work. We believe that in the current age of digital flood of information, everybody must carefully select what and from whom to learn. We work with the best in order to be the best.

We are looking forward to our cooperation!

An aerial photograph of a town in the Czech Republic, likely Brno, showing a river winding through the city. A prominent church with a tall spire is visible on the left. The town is built on a hillside, and the river reflects the buildings and the sky. The sky is a mix of blue and orange, suggesting a sunset or sunrise.
