d. Project of a seminar in London first half of  
October 2024

The focus will be on construction and construction disputes. Our initial worries, that London is not possible, turned out not to be true. Johannes Meyer-Myklestad has already mentioned that he would be happy to be part of the OC. The other OC spots are not filled, yet. [After the meeting the Litigation Commission indicated that they might be willing to join forces with our commission].

4. Miscellaneous

If you want to get involved in our commission, please drop an email to the commission officers (see left column).
