RIGA OLD CITY Treasure Hunt – a competition between AIJA HYC participants

Do you want to make the time spent in Riga unforgettable? We offer you an opportunity to take part in the interactive game “Secret Code – City Treasure Hunt” and have fun competing with other AIJA RIGA HYC participants.

Riga has always been in crossroads of trade and culture. City has experienced governance of Germans, Poles, Swedes and Russians. Symbols, historical signs and multi-faced architecture – all in one place - all in Old Town!

The game consists of elements of orienteering. All players are divided into teams, and each team has a teaser of exercises and limited time to complete them. Each teaser include a special Riga story or legend which is announced by the game manager at the end of the competition – so at the end each teaser forms one connected story about Riga.

Photos and videos are requested as well. The pictures and videos thereafter are sent electronically to the participants thus creating Riga adventure portfolio for memories.
